

How to play sleeping giants

One person is chosen to be the giant with a golden egg placed next to them. The giant has to face away from the other players.

When the game starts, all the other players have to try and sneak up on the sleeping giant and steal the egg without being seen or heard.

At random times throughout the game, the giant has to turn around. Any player seen moving is sent back to the start.

The winner is the person who reaches the giant and gets the golden egg.

- All players must remain as quiet as they can when approaching the giant
- If the giant says you're out, you must go back to the starting line
 - The giant can turn around as often as they like
- If they hear a sound, it is advisable for the giant to turn around and try and catch the sneaker!
