18<sup>th</sup> October 2012

Dear Mr Miliband.

I am writing to you because we need a change, the environment needs to grow not shrink.

As a singular species we are rapidly bringing the earth's down fall so we need to at least stop littering and I feel you can do this!

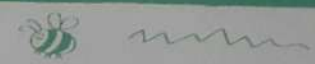

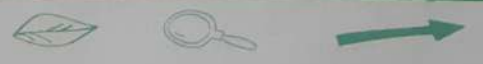

The human kind regularly destroys forests.

DONCASTER STORIES

# The Great Green Read

Did you know 15 billion trees are chopped down every year? As well as that, everyone just dumps their rubbish outside on the floor and even next to bins.

I think you should try and ban plastic landfills. Green power is good power so an environmentally friendly solution to power is solar or wind power. So Carbon emissions from coal power plants or radiation from nuclear power plants does not destroy our earth.

I hope that you reading this makes you help.

Yours faithfully Ethan J
